Greg reported that there are now 203 high schools connected which also increases the number of students and aggregate B/W. All schools have now been identified for connection.

Contract is not up for renewal until 2014; however the IEN is looking at various options for renewing or re-bidding to thoroughly cover all options.

Cost distribution was covered in a power point presentation to show cost per megabyte per population of each school district.

ENA/CENTURYLINK UPDATE

- Metro E – CenturyLink will be installing equipment in Blackfoot to allow for Metro-E; Rexburg and Jerome are also on the list to receive Metro-E.
- Monthly dashboard - Mike Vance reported that B/W and utilization of the IEN has doubled over the last year and expected to continue to grow.

The meeting adjourned at 2:28pm.
